“Silence when you have something to say is a lie, and tyranny feeds on lies. Of course, it’s easier in the moment to stay silent and avoid conflict.

But in the long term, that’s deadly.”

~ Jordan Peterson ~

CANADA

When is a Canadian No Longer a Canadian?

First and foremost is the Charter of Rights and Freedoms, which has defined Canada as a country that stands up for individual rights, even against governments who want to take those away. Fast forward to 2021, and those rights are no more. When it comes to getting vaccinated for Covid; it’s get the jab or get lost. Far from standing up for individual rights, Justin Trudeau’s government is snatching them away and redefining them as privileges that the government will deign to give back once a person has obeyed its edict and gotten jabbed.

Trudeau faces “unprecedented” inquiry into using emergency powers against civil liberties protesters

Opposition parties have been critical of Trudeau’s response to the protests and have accused him of using excessive force against peaceful demonstrators. Trudeau invoked the Emergencies Act to give himself these unprecedented powers. The RCMP were deployed to remove protesters, and some bank accounts were frozen without a court order.

Feds’ Narrative for Invoking Emergencies Act on Convoy Protests ‘Faulty’ as CBC Retracts Second Story

In the government’s “Section 58” report explaining why the act was invoked, it cites CBC’s article on the GiveSendGo hack to make the case the movement was heavily foreign-funded (roughly 60 percent of donations to the platform came from Canada and 37 percent from the United States). The convoy’s previous fundraiser through GoFundMe, which had released \$1 million to the recipients before shutting down over claims of breach of terms of service, was largely Canadian-driven.

How Did We Miss This? With Russell Brand

Canadian Prime Minister Justin Trudeau has spoken about "a slippage in our democracies" and the rise of authoritarian leaders, in relation to Putin's invasion of Ukraine. This, without a single hint of irony.

Canada's big banks have much to answer for after blindly following Trudeau's emergency orders

Did any single bank president, floating on a stream of magnificently swollen income and bonuses, attempt to resist or test the edict from the Trudeau government? Did they go to court to test the legality of the move?

CBC forced to pay \$1.95 million in libel case as court finds it "failed in its duty to be fair, balanced and responsible"

The Canadian Broadcasting Corporation (CBC) has been found liable in Manitoba's largest defamation case since 1998. The CBC's stories detailed an investor unhappy with the performance of his investment, and who alleged unethical behaviour on the part of Kenneth Muzik. "The CBC took very strong positions during the course of the trial that were not supported by the facts as I found them", Justice Rempel added.

University of Toronto: 'Rights expert' accused of 'anti-Palestinian racism' for discussion of today's anti-Semitism

This is a personal account, but this principle holds far beyond me and Ensaf Haidar and Irwin Cotler. Cowardly capitulation to the Left never gets anyone anywhere. And as for me, there is nothing wrong with standing against jihad violence and Sharia oppression of women and others. I don't advocate or approve of any violence or unlawful activity of any kind. Neither Haidar nor Cotler can point to anything in my work that they can say is false, or genuinely offensive, etc. They only disavowed me because I am hated by people they wanted to win over. It didn't work.

C3RF Update, 18 March 2022: Irrational Outcomes

This week's update discusses the accelerating number of irrational fears, cures and outcomes that Canadian leaders are foisting upon everyday citizens. How is it that the ruling class could be so fearful of salt-of-the-earth protesters that they would revert to declaring the Emergencies Act? And how is it that the related cures they propose for the Wuhan virus pandemic are so irrationally detached from the facts on the ground that they are only likely to produce just as loopy outcomes? Could it be that solutions are not so much the order-of-the-day as is a transition to a new relationship between salt-of-the-earth Canadians and their rulers?

C3RF “In Hot” interview with Greg Hill and Matt Sattler

Major Russ Cooper (Ret'd) discusses vaccine mandates with Greg Hill and Matt Sattler from “Free to Fly”. The new normal that sees pilot careers hinging on one’s vaccination status has only been made possible through shortcutting the rule making and safety cultures that have made Canadian civil aviation the safest in the world. Are we taking risks that we’ll regret? How can such recklessness be justified?

Lifting Restrictions – A Pause on Tyranny

In February Tam said, *"Canadian governments should be ready to resume public health measures if another serious variant of COVID-19 emerges... But it's still uncertain what the novel coronavirus that has upended life around the world nearly two years will do next."*

The psychological war continues and now is NOT the time to rest or become complacent. We must continue to mobilize the masses, raise up leaders, and pursue legal actions against individuals and government officials.

TRUCKERS CONVOY UPDATE

Outrageous bail conditions make Tamara Lich a political prisoner

“Tamara Lich called on Canadians to exercise their Charter freedoms of expression, association and assembly, and to do so peacefully and respectfully. In return, she was criminally charged with counseling to commit a criminal offence”. A person who is arrested or put in prison because of his or her political beliefs is a political prisoner. This also holds true for anyone who is wrongfully arrested under trumped-up criminal charges when the real reason for the arrest is having publicly and peacefully opposed government laws, policies or practices.

Banks went beyond RCMP list of names in freezing a 'small number' of accounts under Emergencies Act: Bankers Association

The financial aspects of the powers were the most unusual. The regulations approved by cabinet allowed banks to freeze personal and business accounts without obtaining a court order and without fear of being sued. Ms. Mason said the law compelled the banks to freeze accounts subject to the federal orders.

No evidence of terrorist activity during convoy protests: RCMP financial crime director

The RCMP's Director of Financial Crime Denis Beaudoin told the Commons finance committee on Mar. 7 that there was no evidence of terrorist activity in the funding of the freedom convoy protest. The Banks Went After Journalist Andy Lee For Covering the Freedom Convoy

It wasn't just the organizers of the convoy that were targeted by the government for de-banking; journalist Andy Lee who covered the convoy got hit as well. What happened to Andy Lee goes far beyond the standard big tech censorship story. This is bone-chilling stuff for a Western democracy to be engaging in. Justin Trudeau may not be at the level of Vladimir Putin, who murders journalists he does not like, but freezing their bank accounts is a lot closer to Putin's views of "press freedoms" than any Canadian Prime Minister should be.

CBC admits running fake news about Freedom Convoy

CBC has parroted the idea that extremists and foreign sources were behind the trucker protests despite evidence showing otherwise. "On February 10 in a report about the protest convoy CBC Radio's *The World This Hour* incorrectly said GoFundMe ended a fundraiser for the protesters over questionable donations to the group," a statement by the public broadcaster wrote. No further explanation was provided by the CBC on why the statement was incorrect.

UKRAINE

Why Did Vladimir Putin Invade Ukraine?

"For Putin, destroying Ukraine's independence has become an obsession.... Putin has often said, and even written, that Ukraine is not a separate nation, and should not exist as a sovereign state. It is this fundamental

denial that has led Putin to wage this totally senseless war that he cannot win. And that leads us to the problem of making peace: either Ukraine has the right to exist as a nation and a sovereign state, or it hasn't. Sovereignty is indivisible. Putin denies it, Ukraine defends it. How can you make a compromise about the existence of Ukraine as a sovereign state? Impossible. That's why both sides can only fight on until they win.

<https://www.gatestoneinstitute.org/18329/russia-putin-ukraine-invasion>

10 Realities of Ukraine by Victor Davis Hanson

Point 7: Putin did not invade during the Trump tenure, although he had been more aggressive under previous American leadership with his prior attacks on Georgia, Ukraine, and Crimea. Russia stayed still when oil prices were low, fuel supplies in the West were plentiful, and the United States was confident. When the U.S. was neither bogged down in optional military interventions nor led by a president predictably accommodating to Russian aggressions, Russia stayed quiet.

Pawns of Putin

It has always been the Democrats who were soft on Russia because inherently their political worldview aligns with the Marxist ideology which has infected that country since the Bolshevik Revolution in 1917, and is what Putin is trying to restore in Russia by rebuilding the Soviet Empire as we witness him invade Ukraine in 2022.

Ukrainian White Helmets

The White Helmets was a USAID (spook) funded operation to manufacture "evidence" of war crimes and atrocities in Syria for western audiences under the guise of a group providing 'humanitarian assistance'. USAID provided no funding for such groups in Iraq, Afghanistan or Libya because

wherever the U.S. invades, there are no war crimes and thereby no need for humanitarian assistance.

The Frictionless Souls Addicted to the Cause

Putin's invasion of Ukraine was perfectly timed to fill the emptiness left by the collapse of COVID restrictions. And what the reaction says about us matters more than what it says about Ukraine. The desperate hunger for new causes is a spiritual vacuum. The Ukrainians and the Russians believe in what they're fighting for. We believe in the need to believe in something.

COVID-19 UPDATE

What if the COVID-19 vaccines are not really vaccines?

Evidence has come to light strongly indicating that the Moderna and Pfizer COVID-19 vaccines are not really "vaccines" in the medical and legal sense of the word, but rather "experimental gene therapies." Dr. David Martin makes a most sobering comment: "These injections are not vaccines. They do not prevent infection, they do not render you immune, and they do not prevent transmission of the disease. Instead, they alter your genetic coding." As well, "World governments and global and national health organizations are all complicit in this illegal deception and must be held accountable."

Ivermectin Evidence with Dr Tess Lawrie

Many of us ordinary people have been following the reports of the efficacy of Ivermectin for months. And now the popular, respected Dr John Campbell and the good Dr Tess Lawrie have shown us the facts and figures! Let's pray that our governments and our medical regulatory agencies will finally accept and encourage the use of Ivermectin.

Ukraine Biolab Watchtower by Dr. Robert Malone

In addition to being a physician, vaccinologist, virologist, molecular biologist, person who made discoveries as a young man yielding nine domestic patents which disclose the ideas and reduction to practice of using mRNA as a drug including for vaccination purposes and all that, I have worked in biodefense and medical countermeasure development for decades now. This includes close cooperation through multiple infectious disease outbreaks with scientists at USAMRIID and the Defense Threat Reduction Agency (DTRA). I know these people, how they think, what they are concerned with, what they do, etc.

Biological weapons of mass destruction

The most telling event of the entire COVID crisis, in my humble opinion, was forbidding the off-label use of Ivermectin and Hydroxychloroquine. No other set of drugs has ever been banned from off-label use in this way. If our government restricted access to Ivermectin, there is now no reason to presume it would not do the same for cures to another weaponized organism. Anyone who held the view that there are too many people in the world would be glad to participate in such a project.

Malone, McCullough: Get Politics Out of Healthcare, Let Doctors Practice Medicine

Disturbing Department of Defense (DOD) data on COVID injection side effects have also been uncovered. THE GREAT RESET

The WEF: World Economic Forum Versus Western Culture

It's past time that we all learn about the WEF and the people behind it. The Four Horsemen of the Apocalypse: Klaus Schwab, Bill Gates, George Soros and Anthony Fauci, medical czar. Each one of them is EVIL. And each one is attacking our Judeo/Christian ethic that underpins our culture.

Klaus Schwab's Tower of Babel

Today, the *new* Tower of Babel is the EU and all of its related Davos globalism. It is saturating the globe on all continents. It pretends to make the world a better place. It does no such thing. This is the prevailing ideology of global elites and the institutions and machinery they deploy to make themselves gods—to maintain control over humanity.

Setting aside all tradition, all past custom, often rewriting history, and most notably, eradicating the nation-state and religions, these globalists and the crony capitalists and socialists who fund them and all their doings, seek one thing: *the power to control*.

THE ENVIRONMENT

Carbon-Free Nuclear Power

The most reliable of all energy sources is nuclear energy. It is available 24/7/365 and does not depend upon sunshine, wind, water levels, or fossil fuels. The wind does not always blow and the sun does not shine at night. Maintenance and downtimes are minimal with nuclear energy. A small

quantity of uranium powers nuclear energy. Uranium is a plentiful mineral throughout the world and the U.S. It is easily and securely transported.

A solar panel farm kills thousands of birds, requires 450 times the land area of a nuclear power plant and is effective only when the sun shines. Wind farms also require large tracts of land, kill thousands of birds and provide intermittent power. Battery storage technology for renewable energy is not capable of providing sufficient and sustainable electricity to meet society's needs. The primary source for solar panels and windmill blades is China.

DIGITAL I.D.

Something to Think About:

- A cashless society means no cash. Zero.
- It doesn't mean mostly cashless and you can still use a wee bit of cash here and there.
- Cashless means fully digital, fully traceable, fully controlled.
- I think those who support a cashless society aren't fully aware of what they're asking for.

A Cashless Society Means:

- No more tuck-away cash for those preparing to leave domestic violence.
- No more purchases off marketplace unless you want to risk bank transfer fraud.
- No more garage sales.
- No more cash donations to hungry homeless you pass.
- No more cash slipped into the hands of a child from their grandparent.
- No more money in Birthday cards.
- No more piggy banks or tooth fairy for your child.

- No more selling bits and pieces from your home that you no longer want/need for a bit of cash in return.
- Less choices of where you purchase based on affordability.

What a Cashless Society Does Guarantee:

- Banks have full control of every single cent you own.
- Every transaction you make is recorded
- All your movements and actions are traceable.

SAUDI ARABIA

Raif Badawi and the brutality of Saudi Arabia

Seven years and several hunger strikes later, Badawi, having served his sentence, has been freed. But his future remains uncertain. He is prohibited from leaving Saudi Arabia for a further 10 years under the terms of his original sentence – which therefore prevents him from reuniting with his wife and children, who now live in Canada. And no doubt he is being watched carefully by Saudi security forces for any signs that he is once again challenging this most Islamic of states. After all, Badawi's very existence, his refusal to submit to the strictures and edicts of life in a theocracy, poses a threat to the Saudi regime – it is perhaps only his international fame that saves him from the fate of others less well known, their decapitated bodies a grim testament to the kingdom's intolerance of dissent.

I highly recommend that you watch Tucker's monologue and share it as widely as you can. What he has to say is profoundly ugly and disturbing, but it's also important. BOOK RECOMMENDATION

The Collapsing American Family: From Bonding to Bondage

The book exposes the sinister attack on the nuclear family as the primary strategy in globalism's asymmetric warfare on America. The family presents a competing ideology that must be destroyed in order to collapse America from within, and impose the Great Reset of technocracy and transhumanism. The "New Normal" replaces family bonding with feudal bondage in the global Managerial State where you will own nothing and be happy. Globalism's war on America is psychological warfare, an information war fought without bullets.
